Your Immediate Response Is Requested

Submittal No. 1 B

Dear Customer;

We need your help.

As a property owner/resident of the Village of Orchard Park, I want to inform you about an initiative in your community where the Village of Orchard Park will be replacing all water meters.

This is a major initiative to replace old meters and introduce new meter reading technology which will streamline the meter reading and billing processes.

We need access to the water meter that is located on your property more specifically in your home, to complete this work which will take approximately 30 minutes. This is NOT OPTIONAL; we cannot complete the work without your cooperation and access to your property.

We ask that you contact our office to schedule an installation appointment between the hours of 8:00 a.m. and 5:00 p.m. Monday thru Friday. There may also be Saturday appointments available. Appointments will be available starting in January of 2018. There will need to be someone 18 years or older at home at the time of the appointment.

4th Generation Construction employees will be uniformed with company logo attire as will their vehicles, and will also carry a photo identification card stating their name.

The Village of Orchard Park is requesting that customers with any questions about the installation of new water meters call a 4th Generation Construction customer service representative at (716)299-0063 or (716) 299-0178.

Please visit the following website for additional information,
