SECOND NOTICE PLEASE RESPOND

Submittal No. 2C

Dear Customer;

We recently sent you a letter informing you about the initiative in your community to replace all water meters in the Village of Orchard Park and have not yet heard from you. Please call to schedule an appointment at your earliest convenience.

This is a major initiative to replace old meters and replace them with new meter reading technology which will streamline billing and meter reading.

We need access to the water meter that is located on your property, more specifically in your home. To complete the work the process takes approximately 30 minutes. We cannot complete the work without your cooperation and access to your property. THIS IS NOT OPTIONAL.

To keep cost at a minimum we ask for your prompt attention in this matter. You can call 4th Generation Construction at phone numbers below to make an appointment Monday thru Friday between the hours of 8:00 a.m. and 5:00 p.m. There may be Saturday appointments available. Also, someone 18 years or older will need to be home at the time of appointment.

4th Generation employees will be uniformed with company logo attire as will their vehicles and will also carry a photo identification stating their name.

The Village of Orchard Park is requesting that any customers with any questions or concerns to call 4th Generation Construction customer service representatives at (716)299-0063 or (716)299-0178.

We are hoping for an immediate response to this matter.

Sincerely,

Nick Yarussi
Project Manager
